

# Final Project Summary

Leyu Xu

## Topic

This final project is about some of my favorite Japanese anime and light novels of sci-fi or dystopian themes. In particular, the project provides a brief introduction of two anime works: *Psycho-Pass* and *Darling in the Franxx*, as well as one light novel: *Eighty-Six*. In the introductions of respective works, the setting and the exposition part of the entire plot are generally presented to the audience. Also, the introductions include some images and video clips from the respective works and certain philosophical ideas covered by the works.

## Purpose

The purpose of this final project is to promote my favorite Japanese anime and light novels to the audience. Plus, by including the discussions on the philosophical message conveyed by each work, I hope to demonstrate to the audience that even anime and light novels that are stereotypically thought to be for teenagers and entertainment only could deliver meaningful lessons on the truth about life and world, as well as evoking critical thinking.

## Extras Used

1. **HTML5 Media Tags:** each introduction page uses html5 video and audio tags for the header and background music respectively.
2. **jQuery Plugin:** the introduction page for *Psycho-Pass* uses interactive image jQuery Plugin for showcasing the major characters. Link to documentation: <https://interactive-image.readthedocs.io/en/latest/getting-started/basic-usage.html>
3. **CSS Transition and Transformation:** the introduction page for *Eighty-Six* uses CSS transition and transformation for showcasing the illustrations of the light novel.
4. **iframe:** the introduction page for *Darling in the Franxx* uses iframe for showcasing the main characters of the anime.
